

The 'Green Scene' for Kids

Earth's future is in the hands of our children. It's time to start educating them now to reduce, reuse, and recycle along with learning some simple alternative uses of energy for a cleaner and greener future.

Join Dawn Marvin Ward
as she shares some simple ideas with our children to
start living 'greener' lives using some renewable resources.

Saturdays June 6-27 @ 10:30-11:30 a.m.
Shutesbury Library

June 6 **Trees Every Day**

June 13 **Water Wonders**

June 20 **Ways of the Wind**

June 27 **Solar System at Work**

For more information, please contact Naz at 413-423-3337, mohamed@erving.com
or Mary Ann, the Shutesbury Librarian at 413-253-1213, cbandmaa@msn.com

This series is made possible through a Grant from The Shutesbury Cultural Council and is offered as collaboration between the Family Network Program, the Shutesbury Library and the Ma Cultural Council.

This is what you will enjoy.....

June 6 **Trees Every Day** What would life be like with out trees?! Learn to make your own paper, wooden creations and hear about a very special tree.

June 13 **Water Wonders** Water, water all around! Where does it all come from, how can we use it and where does it all go? Follow the cycle and play some watery games.

June 20 **Ways of the Wind** Blustery days can really make things go topsy-turvy but if put to use it can make things work for us. Hear a silly story and play with the wind.

June 27 **Solar System at Work** The sun is really what really makes the world go round! Without the sun's power we wouldn't have the trees, water and wind. Join us as we celebrate the uses and power of our Solar system.
