

School Union# 28 Family Network

APRIL Newsletter

Family Network group email:

Have you ever wondered...

Is the Eric Carle museum appropriate for two-year-olds?

Where can I find ice skates for toddlers?

Do you know anyone who needs a crib?

How do you get your kids to eat vegetables?

How do you combat cabin fever?

Community announcements?

Other Program activities and events?

Family Network provides a valuable network for answers to questions like these, and soon answers will be only keystrokes away! Lory Hayes and Beth Willson have generously volunteered to create and administrate an email group providing a forum for parents to exchange ideas. If you would like to join, please email Naz (mohamed@erving.com)

Family Network goes paperless! In an attempt to be more earth-friendly (and save a little money on postage), the monthly newsletter will now be available by email. Email Naz (mohamed@erving.com) to sign up for the paperless format.

Check out the Department of Early Education & Care's new family guide "***Learn and Grow Together***" online at www.eec.state.ma.us/docs/EEC_parenting_guide_FINAL.pdf This new resource provides easy-to-understand information on the key stages of child development, and suggests age-appropriate family activities that are fun and low-cost. View it, print it, share it, and tell us how you use it! Send comments to: commissionersoffice@state.ma.us
